2 Express Bus Routes Considered For Area

Bi-State Seeks Federal Grant Of \$357,754 For One-Year Of Operation

Two new express bus routes will be inaugurated by Granite City and downtown St. Louis if the Bi-State Development Agency is successful in obtaining a federal grant of \$357,754 from the Housing and Home Finance Agency.

The Bi-State agency announced that it applied for the mass transportation demonstration grant during a meeting Thursday afternoon in St. Louis.

One of the express routes would originate in the northwestern part of Granite City and operate via Franklin Avenue, Terrace Lane, Johnson Road, Benton Avenue, 27th Street, Delmar Avenue, 18th Street, Madison Street, 27th Street, Delmar Avenue, the McKinley Bridge and into downtown St. Louis. It would be called the Granite City Express.

The other will start in the northeastern part of Granite City and operate via Ponton Road, Johnson Road, St. Clair Avenue, Wayne Avenue, Faith Avenue, Namek Road, Edwardsville Road (Highway 162), then through Madison and Venice and over the McKinley Bridge into downtown St. Louis. It would be called the Ponton Road Express.

The two are part of seven express routes and a cross-country route between Clayton and Ferguson being planned by Bi-State Transit.

The grant would help finance the plan during an experimental one-year period and represents about two-thirds of the federal-aid cost of \$536,631. Bi-State would guarantee the balance of \$178,677.

The other proposed express routes are the Big Bend Express, Ceyer Road Express, Landmark Express, St. Charles Express, and the Watson Express.

Demonstration Grants. Leo A. Fisher, Bi-State chairman, said the transportation program of the Federal Housing and Home Finance Agency provides for demonstration grants to help support projects that have a potential for developing information of value to the transit industry generally.

"As a public agency providing transit service on an area-wide basis, Bi-State qualified for consideration under the program, and we are certainly hopeful that the government will act favorably on our application."

"We believe that the experimental lines being proposed will provide improved transit service to the area involved, and that, in time, they will develop sufficient patronage to be self-supporting."

"In the initial period of operation, however, these lines will not pay their way. The federal aid requested will be an essential part of the program."

Ramach said the doorman, who was recognized as Ford, made good his escape when one of the women gave the alarm by shouting "raid." Ford was taken into custody Sunday evening along Collinsville road.

Both he and Graham were freed on bonds by Edwardsville Magistrate William Traband. Ford posted \$2000 and Graham, \$500 for hearings Feb. 23.

The women were ordered to undergo clinical examinations and to be held by the Madison County Jail. Warrants resulting from the raid were issued by Assistant State's Attorney Joseph Bartylak.

MORE ABOUT 2 Express Bus Routes

(Continued from Page 1.)

Controlled Experiment

For the federal government, the project will provide a controlled experiment to determine the conditions under which new express service will gain acceptance, and the conditions which justify the establishment of cross-town service between two important suburban communities, where none now exists. The criteria so developed will be helpful to public officials, planners and other metropolitan transit systems where similar conditions prevail.

"For our Bi-State area, the project will result in immediate and substantial improvements in transit service. Moreover, the information obtained will help us in planning for future improvements of the Bi-State transit system."

The proposed new express lines will provide shopper service during the midday period as well as morning and evening rush hour service. Air-conditioned buses will be used in the operation.

The period for the demonstration project would be one year. During this time, no major changes in the routes or service would be contemplated except for adjustments necessary to accommodate any increases in patronage. The experiment would be accompanied by an intensive promotional program. The HHFA so far has given Bi-State no commitment.

During the meeting it was reported that the transit system experienced a \$92,056 operating deficit for the first nine months of its existence, primarily because of a drop in business in December.

For the nine months ending Dec. 31, the operating revenue was about 2% under the amount budgeted and operating expenses were about 2% over the budget.

Revenue Down

Passenger revenue for December was \$88,000 under the budget, or about 5% below the amount budgeted. The deficit was due to severe weather conditions and disappointing Christmas shopping travel. According to Weather Bureau statistics, officials said, December contained the longest period of severe weather since 1918.

Operations for December were \$69,000 over the budget due to excessively heavy storm fighting and cold weather costs, abnormal traffic conditions and additional mileage and scheduling resulting from a last-minute rearrangement of department store hours.

The agency, however, showed that its financial picture was brightened as \$238,197 was left over from \$238,895 revenue bond money earmarked for acquiring the transit properties after paying of the amount, \$200,000 was transferred to working capital and the rest to the capital improvement fund.

60 New Buses

The agency authorized its transit services corporation to award contracts for 60 new buses at an approximate cost of \$1.5 million.

Included will be the purchase of forty 50-passenger air-conditioned buses from General Motors Corp. at a price of \$30,202 each, the purchase of ten 50-passenger air-conditioned buses from the Flexible Co. at a price of \$30,576 each and the purchase of spare parts at an estimated total cost of \$25,000.

Bi-State's pension and welfare plan was extended to cover all employees of the agency.

Commissioners approved the disposal of surplus bus boxes in having an estimated value of \$30,000 and approved a \$200,000 bid in the former Brown Box Coach Co. property in Alton for the sale of, formerly in Alton for \$200,000.

Peak Dock Operations

It was noted that operations at the Granite City Bi-State dock are at a peak as it is the only harbor in the St. Louis area that is operating because of the low level of the Mississippi river.

A tentative budget is to be presented at a meeting at 2:30 p.m. Monday when Bi-State revenue bond holders may present their views. It will be up for adoption at the next monthly meeting at 10 a.m. Feb. 28.

GC Harbor Only One Serving 2-State Area

The Bi-State Agency harbor on the Chain of Rocks canal is the only public dock in the Illinois-Missouri metropolitan area now in operation. Docks along the Mississippi River at St. Louis are shut down because of the low water stage of the river.

The Bi-State Agency's Granite City harbor has an advantage of maintaining a depth of about 18 feet because of the low water stage of the river. The harbor is working at capacity but has been unable to keep up with the continuing large amount of river barge traffic inbound and outbound.

dog one, but dogs plural. They say they don't belong to them. They belong to the children. How can you collect a tax from people like that.

"I don't know what the dogs do to. The majority of people who have a common ordinary dog won't pay. I don't think it has to do with rabies control, but Madison and Venice and the county have their own programs."

Madison, Venice Fees
Madison has fees of \$1 for a male and \$3 for a female and issued 32 license last year, while the Venice fee is \$1 across the board and about 50 license were issued.

Half of the county fees collected in cities are to be turned over to the cities, but tax assessors feel that the double taxation is unfair to the people.

The state law does not require the city to provide the services now conducted by municipalities, and the effect on city programs is questionable according to Cruse and Bergrath. City officials have yet to consider the matter.

Bergrath suggested obtaining a ruling on the statute from the state attorney general, and Cruse said he would go to State Rep. Lloyd "Curly" Harris in an attempt to have the state's annual code repealed or amended.

Meanwhile there is a growing concern among the tax assessors and city officials that "it's not so much what the state legislature does for you, but it's what it does to you!"

And the stock value of cats is expected to jump.

Miss Dorothy Motes Becomes Bride Of Everett Marshall

Grace Baptist Church, 2600 Edwards street, was the scene of the wedding Saturday evening of Miss Dorothy Motes, a daughter of Mr. and Mrs. Kenneth Motes, 1712 Grand avenue, and Everett E. Marshall, a son of Mrs. Don Amick of Dupont, Colo.

Rev. Clifford Moeller officiated at the 7 o'clock service which was followed by a reception at the NCO Club at the Granite City Army Depot.

A program of wedding music was furnished by Mrs. Ray Parchment, organist, and Mrs. Marvin Keel, vocalist. The songs were "Because," and "I'll Walk Beside You."

The bride wore a gown of gardenia white lace. The bodice, fashioned with a scalloped neck outlined with seed pearls and sequins, was fitted, dropping to a point in the front and at the back waistline. Traditional sleeves, buttoned, formed points at the wrists. The gathered skirt was side-wide and extended with crinoline at the sides, ending in a cathedral train. The front revealed a panel of nylon sprinkled with lace appliques and scalloped at the bottom. A fingertip veil of imperal silk filigree was secured with a pearl crown and the bride carried a tear drop cascade bouquet of white carnations. She was given in marriage by her father.

Mrs. Richard Duke, matron of honor, wore a extra-length dress of canary yellow peas de sole styled with a detachable jacket, bracelet length sleeves, a round neck and a belted skirt. Her flowers were white carnations tipped with yellow in a nosegay showered with yellow

atin ribbon. A circular veil was attached to a yellow peas de sole cabbage rose embellished with seed pearls.

Emmett Meador was best man for Mr. Marshall, and Kenneth Motes Jr., the bride's brother, and James Schwertman, an uncle of the bride, served as ushers.

For her daughter's wedding Mrs. Motes selected a beige sheath dress and beige accessories, while the bridegroom's mother appeared in blue lace and matching accessories. Both had corsages of white carnations.

After a short trip the couple will live at 2419 State street.

A graduate of the Granite City high school, the bride is employed at a St. Louis bank. Mr. Marshall was graduated from Adams high school and then entered the Army.

The church was decorated with altar bouquets of white gladioli and pom poms and light was furnished by burning candles in candelabra.

Mrs. Gary Ingraham, a sister of the bride, presided over the guest book at the reception.

Among the out of town guests here for the event, beside the bridegroom's mother, were Mr. and Mrs. Gene Gintner, Mrs. Gary Nolte, a sister of the bridegroom, Mrs. Van Matre and Mrs. Cridenbaugh, his grandmothers, all of Dupont, Colo., Mr. and Mrs. William R. Den and Mr. and Mrs. Otto T. Runens of Waukegan, Ill.

Warriors After 7th Straight Southwestern Mat Championship

THROWING SOME WEIGHT AROUND. Granite City wrestlers lost their Wood River opponents around in Friday night's 31-10 victory. At left, the Warriors' Mike Andria is about to slam down Ed Albertson of the Oilers in the 138-pound bout. Andria ended up a 3-1 loser. At right,

Ernie Kern hoists Wood River's Jewell Hand enroute to a 5-0 victory. The Warriors met the Tigers of Edwardsville there tomorrow night in an effort to win the Southwestern Conference title.

Locals Face Tigers In Deciding Match Of Conference Race

Granite City's wrestling Warriors rang up two more victories last week but the biggest match of the season lies ahead—at 7 p.m. tomorrow at Edwardsville. The match at the Tigers' den will settle the championship of the Southwestern Conference. The Warriors are out in front with a 7-0 record but the Tigers are a close second at 6-1. A victory in the Southwestern finale would give the Warriors their seventh consecutive conference championship. Overall, Granite City has a 14-1 record and Edwardsville is 8-1. The Warriors, of course, lost to Waukegan and the Tigers lost to the Warriors 27-15 on Jan. 7. In the first meeting, Granite City clinched the championship. 150-pounder Gary Forneise and heavyweight John Eviden won on pins in the final two bouts. String Hits 126 The Warriors notched their seventh conference triumph Friday night over the visiting Wood River Oilers, 31-10. On the previous night, they won an interstate match with the Ritenour, Mo., Huskies, 22-18. Those two successes ran the Warriors' string of successive victories over Southwestern 11 rivals and the Oilers are tied to 126. The last setback from a team outside of Cook county was in 1956, when Belleville ousted a victory. Friday night's triumph was an easy conquest to the Warriors with the defending Missouri state champions. After the first 11 bouts, Ritenour had an 18-17 lead but heavyweight John Eviden pinned Ken Steiner in 3:40 to wipe out the lead. The Warriors' 120-pound class. And the turning point in the match came when the Warriors scored nine points in the third period to beat Ritenour's Terry Brockard, 11-6. Bob Finley Injured The Granite City jayvees beat Ritenour 28-19 last night in the process, 120-pounder Bob Finley was knocked out and had to be carried to the hospital. Another highlight was Dan King's 3-2 decision over previous champion Steve Jones. King scored nine points in the third period to beat Ritenour's Terry Brockard, 11-6. Bob Finley Injured The Granite City jayvees beat Ritenour 28-19 last night in the process, 120-pounder Bob Finley was knocked out and had to be carried to the hospital. Another highlight was Dan King's 3-2 decision over previous champion Steve Jones. King scored nine points in the third period to beat Ritenour's Terry Brockard, 11-6.

Rams Entertain Kinloch Quintet

Lincoln's Rams, trying to improve a 2-8 win-loss record, entertain the Bulldogs of Kinloch, Mo., at 8:15 p.m. tomorrow at the Lincoln school gymnasium. The Rams lost earlier to the Bulldogs at Kinloch, 97-87. But the Missouri team is known to be extra tough in its own gym and, with a home court advantage, the Rams might easily wipe out that 10-point deficit. Lincoln hasn't played since Jan. 24, when it lost a 65-61 decision at Brooklynn Lovoy. The local team's two victories have been over Lenoir in a Dec. 13 game and Jan. 21 over Red Bud. Three players dominate Lincoln's scoring. They are Calvin Dixon with a 12.5 average, Richard Jackson with 11.6 and Percy Dillon, 11.0. Jackson, a 6-1 sophomore, has shown continuing improvement and has scored in double figures in the Rams' last five games. The big task for Lincoln tomorrow will be stopping three players who hit 20 points or more in the Dec. 10 contest. They were Herman Carter (29), John Rouse (21) and James Lucious (20). Dixon had 22 for the Rams in the game.

Edwardsville Blanked By Coolidge Wrestlers

Winning all 12 bouts, Coolidge blanked Edwardsville 46-0 here Friday afternoon. The Braves won on four pins, seven decisions and one forfeit. Dean Jones, 134-pounder, registered the fastest pin—23 seconds. Others who won on pins were Gus Schalkham (103), Dan Wilson (121) and Brian LaMew (127). Taking decisions were Jerry Griffin (163), Ernie Miller (112), Steve Conway (133), Bruce Illies (138), Richard White (145), Ed Clemens (180) and Tim Lane (heavyweight). Ray Hankins (163) took a forfeit. Coolidge now owns an 11-2 record and completes its season this afternoon against cross-town rival Prather.

GC May Have Another Club In Inter-City

A tentative verbal request for admission of a new Granite City team to replace Carpenter in the Southwestern Illinois Inter-City Baseball League was made at a league meeting yesterday in Pocaohontas. League President Vernon Lucas said the request was made by Bill Crabtree, former manager of the Granite City Merchants. Crabtree told league officials that since Merceus and Sacred Heart alternate games at the Granite City high school and Lee Park (Venice) diamonds. Crabtree is expected to notify the league on more definite plans later this week. Presumably, any official action on the application would be taken at the league's March 1 meeting in Roxana. Lucas announced two changes in managers. Dick Portell will replace Paul Schuler as the Sacred Heart pilot and Harold "Honey" Oberkell will take over for James "Red" Thomas as the Maryville field boss. Oiler Miller again will manage the Merchants. The league's opening games will be played April 19, with the regular season running through Sept. 13. Each of the 10 teams will play 22 games. The all-star game will be July 5, but the date has not been selected. A rules committee was appointed, consisting of Chairman Jack Lucas Jr., league secretary of Maryville, Wheeler King, umpire-in-chief of Granite City, Rich Ryan, East St. Louis St. Clair, heating manager; Jim Croach, Collinsville, assistant manager; and Miller and Portell. Upcoming, Lucas said, is the election of an arbitration board member. The five-year term of William Morris, Madison, has expired.

Venice Edges Closer To MCM Loop Title

Venice's chances of winning the Madison-Clinton-Macopin Conference basketball championship look much better today. The Red Devils notched MCM victory No. 6 against one loss Friday night with a 68-59 triumph at Livingston. Meanwhile, second-place Bunker Hill virtually eliminated Breese from title contention with a 77-74 decision. Breese's Cardinals, with a 4-3 record in the MCM, call on the Red Devils for a contest at Venice tomorrow night. Before the loss to Bunker Hill, Breese had been considered the chief threat to the locals' championship aspirations. The Minutemen of Bunker Hill have a 6-2 MCM mark, but have already lost their two games to Venice. Venice's recent league games are two with Breese and one each with Warden, Wesslin and Livingston. After topping Bunker Hill 65-59 in the season's biggest game, the Red Devils' record apparently suffered a setback at Livingston. They were in front all the way, but the halftime lead was only 29-25. Then they snapped out of it and lost 56-59. The Red Devils' attempts and stopped the Eagles with an airtight defense. The Red Devils increased the lead to 13 points after three quarters and coasted to. Rich Essington, Venice's hot shooting freshman, again paced the scoring with 28 points. Three others were in double figures—Mike Edwards (12), John Robertson (11) and Ken McMullen (10). McMullen also pulled in 18 rebounds to give Venice a 38-31 lead in the sixth quarter. Locals Beaten 81-70 After 83-73 Victory Over East St. Louis

After Coach Joe Lucoo of Edwarsville grudgingly put in his reserves Saturday night, he was as surprised as the Granite City Warriors as the benchwarmers rallied the Tigers to an 81-70 upset victory in the high school gymnasium here.

The loss knocked the Warriors out of a second-place tie in the Southwestern Conference basketball race, a position they gained only the night before with an 83-73 triumph over the Flyers at East St. Louis.

Sellewille's Maroons lost a 72-67 thriller to the first-place Colville Kahoks Friday night but edged the Flyers 27-22 in a slowdown contest Saturday night.

Thus, the Maroons are still second with a 7-3 Southwestern record and the Warriors are third at 6-4. The Kahoks, of course, are still unbeaten in the conference (9-0) and in all games (17-0). The Tigers are fourth at 4-5.

Tiger Subs Hot

Both Granite City opponents were in foul trouble as the Flyers committed 30 personals and the Tigers 31, but where fate frowned on East Side, it smiled in Edwarsville.

Three Tiger starters — Dave Bopp, Dan Sues and Bob Harris — had four fouls each in the first half. So the unhappy Lucoo sent in Randy Phelps, Al Cooper and Chuck Fruit. All they did was score a total of 41 points.

Coach Andy Sullivan's Warriors, after trailing throughout most of the first half, finally went ahead 37-35 on Joe Hill's Ripka two free throws at the close of the half. But then Messrs. Hill, Phelps, Cooper and Fruit got hot and — aided by starting guard Joe Townsend, who scored 14 points, and starting center Bob Hoskins, who patrolled the boards — they outscored the locals 26-18 in the third period.

Phelps wound up with 17 points (including 11 in the second half), Cooper had 16 (all in the second half) and Fruit had eight (all in the second half). Bopp, Sues and Harris reentered the lineup only after the Tigers had the victory sewed up.

Lilley Totals 49

Larry Lilley, with his sprained right wrist still bandaged, led the Warriors with 23 points against Edwarsville and 26 in the East St. Louis victory.

The Warrior star hit eight of 10 free shots in the fourth quarter at East Side to help his team keep ahead of the Flyers. Granite City hit 31 free shots to the host team's 19 but was outscored from the field 27-26.

Lending a helping hand against the Flyers were Jim Warren, who tallied 19 points, and Mike Rousseau, who hit a personal season high of 18. Rousseau added 15 points against the Tigers and Warren made 11.

East St. Louis tied the score with 4:50 left in the game before the Warriors shot ahead. Against Edwarsville, the Warriors fell behind after tying the count at 34-34 late in the third quarter.

Jayvee's Win Pair

Coach Roger Manuel's junior varsity won both weekend games. The Jayvees clipped East St. Louis 50-48 as Larry Ripka scored 18 points and Virg Kambarian hit 14.

The contest against the young Tigers was easier. Ripka had 18 in that one and Jerry Lybarger added 12.

Granite City is idle until Friday night, when Dupo of the Midwestern Conference calls here. On Saturday night, the Warriors are home to Wood River's Oilers, last-place club in the Southwestern loop.

HEY, COME BACK HERE. The basketball bounds away Saturday night after Edwarsville's Randy Phelps (25) had bottled it from the hands of Granite City's Vince Debeve (with glasses). Coming in to help Phelps in the second quarter play is Chuck Fruit (35).

Outstanding Performance Award For Mrs. Randall

Mrs. Ruth Randall, 223 Briarcliff, was presented last week with an Army outstanding performance award.

Mrs. Randall is employed as a

supply commodity management officer with the Army Aviation and Surface Material Command in St. Louis. She has been with the command for six years. AVSCOM is a field agency of the Mobility Command at Warren, Mich. The latter is one of five commodity commands under the Army Material Command, Washington, D.C.

Mrs. Delps Aiding Patients At Alton State Hospital

Volunteers conducting sessions of the remediation technique at Alton State Hospital are finding that the experience not only helps patients, but it also leaves their own lives on a higher plane.

"My own spirit seems to be greatly lifted through this close, personal contact with patients," remarked Mrs. Charles Delps, Granite City, "especially when a known withdrawn patient suddenly blurs out a comment in response to a question or statement."

Mrs. Delps is one of eight volunteers who have completed a six-week course in the technique, which was taught by the hospital's official coordinator, Albert Sala. All since have held at least two sessions of their own. Mrs. Delps has conducted six.

Keen Interest

Having been a teacher herself and holder of a Master Degree in education, Mrs. Delps, wife of "Diver Delps," a local underwater diving specialist, indicates her keen interest in remediation is fanned simply "by seeing individuals progress."

There are other compensations, too, she points out, other

than the rewards of a "classroom situation."

"I naturally just love to be around people," she smiled. "I have a desire to help them with personal problems, to help them understand things and to make them feel comfortable, if I can."

Her sentiments epitomize the functions of the technique, says Sala.

Remediation is designed to benefit the withdrawn patient by relieving him of imaginative thinking and, as a consequence, awakening his interest in the real world.

The technique involves five basic steps, the first of which begins after 12 to 14 patients file into a room and take seats. The coordinator, or session leader, arranges them in a circle and then steps inside the formation for the discussion.

The five steps are touched in the discussion of the coordinator and they are basically designed to encourage the patients to talk, or interact, with the session leader and fellow patients.

ANOTHER BRIDGE being constructed for Interstate Route 270 west of Mitchell is the dual unit over the Chain of Rocks canal. The structure, which is much shorter than the bridge under construction over the Mississippi River, also for Interstate 270, parallels the present Route 66-40 bridge (background above photo). It is being built north of the present bridge. The photo to the right shows workmen atop one of the concrete forms for bridge supports. Across the canal are completed supports. The state highway department has allotted \$585,000 for work on the structure this year. The bridge over the river is expected to be completed in 1965.

TAX FACTS

By Maurice W. Scott, Executive Secretary
Taxpayers' Federation of Illinois

The latest edition of "The Illinois Tax Climate" has been released by the Taxpayers' Federation of Illinois. Prepared by T. M. Sullivan, state government research director, the announcement of the release was made today by Maurice W. Scott, executive secretary.

Previously revised in 1959, and originally published in 1956, the study contains comparative tax data for Illinois and her neighboring states and the effect of such taxes upon the attraction or expansion of industry and business in Illinois.

The relative burden of state and local taxes has become a very important consideration in the location of new or expanded facilities and because of this the Federation has brought this study up to date.

"Upon examination of this publication," Scott said, "we believe you will agree that a favorable tax climate does exist and that with this favorable position, together with its other advantages, it makes Illinois a leader among the states in economic growth."

Other considerations, of course, are relatively mild weather, the market of skilled labor, availability of materials, transportation systems and the St. Lawrence Seaway.

The Federation pointed out that a tax structure that is not burdensome, yet one that provides for essential services, and a favorable governmental attitude toward business are among the most important considerations to expanding or existing business and industry.

Sections of the report are devoted to a comparison of income, corporate, general sales, property, inheritance and gift, motor vehicle fuel and motor vehicle licenses taxes between Illinois and her sister states.

Other sections are "Illinois Tax Features," "Proportion of Income Going for State Taxes," "Ratios of Tax Revenues in Selected States, 1962," "Raw Materials," "Production Factors," "Per Capita State Taxes, 1962," "State and Local Taxes Related to Income, 1962," "State and Local Taxes, 1961 Per Employee & Per \$1000 Payroll," "Tax Based on \$1000 Payroll," "Tax Based on Manufactures," "Tax Based on Average Number Employed," "Applicable to Manufacturers," and "Collections from Principal Taxes, 1962."

Illinois levies no corporate or individual income taxes, nor a tax on real or personal property for State purposes. All of these factors combine to truly make Illinois "your central location to serve all the nation," Scott concluded.

Four Quad-City Youths Drafted On Friday

Four Quad-City youths, all from Madison, were drafted Friday morning at the county selective service office. From there they were sent to St. Louis for assignment to training camps.

The four were Leonard A. Sabol, Marshall Price and Willard Woolfolk, who were volunteers, and Louis Bokovski.

The Quad-City quota was for 10 youths. However, five were classified as delinquents and failed to appear, and one induction was canceled.

February quotas for the Quad-Cities are for eight youths to be drafted Feb. 7 and 28 to report for pre-induction physical examinations on Feb. 14.

PROS, CONS IN BULLETIN

Farmers will find many of the pros and cons of recreation enterprises in a recent U. S. Department of Agriculture bulletin. This 48-page publication, "Rural Recreation Enterprises for Profit," is designed to help private landowners and operators decide whether they want to use their land to provide rural recreation for income.

The bulletin describes some of the opportunities for income-producing recreation enterprises. It tells of the assistance available from the U. S. Department of Agriculture and other public agencies to develop rural recreation resources.

The development of rural recreation resources is largely a matter of using and managing land, water, plants and wildlife. But for most people, serving vacationers and weekend pleasure seekers is a new and tricky kind of business.

Before investing heavily in a recreation enterprise for profit, persons should judge the market, the land and water resources and personal aptitudes. Copies of this publication may be obtained from 421 Mumford Hall, University of Illinois, Urbana, Illinois. Ask for Agriculture Information Bulletin No. 277.

STRAWBERRY PLANTS ON SALE

If you haven't already ordered your strawberry plants, place your order right away, advises University of Illinois horticulturist C. C. Zych.

If you're a commercial grower entering a large quantity of home gardeners wanting a certain variety, you'll have a better choice if you order now. Many nurserymen won't dig more plants than they are reasonably sure of selling.

If you order late you may not get the kind of plants you want, or you may get freshly dug plants rather than the preferred cold-storage plants.

Zych recommends using certified, virus-free plants. Be sure the plants are free of red stele, root knot nematodes and noxious weeds.

You can get good plants from Arkansas, Maryland, Tennessee, Delaware and Michigan. Be sure to specify delivery dates on the order so that you'll have your plants early enough to set out as soon as weather permits.

On a statewide basis, Zych recommends Pocahontas, Earlclaw and Surecrop. In southern Illinois, Blakemore is still a favorite. Tennessee Beauty does well as a commercial and home garden variety in southern Illinois.

When buying strawberry plants, buy only from reputable growers, and give them plenty of time on your order.

MILK PRODUCTION

The herd of 22 Holstein cows owned by Melvin Wolf of Worth had the highest average milk

production in the 1963 Weigh-A-Day-A-Month program in Madison county. The average production per cow was 14,118 lbs. of milk.

Other high herds in WADAM, ranked by average milk production per cow were owned by Raymond Moehle, Raymond Blase, Clarence Iberg, Al Luitpban and Elmer Schakke. These herds all averaged more than 12,000 lbs. of milk per cow.

The Weigh-A-Day-A-Month program enables a dairyman to identify the inefficient, unprofitable, surplus-producing cows. Dairyman interested in taking advantage of this system of keeping production records are invited to notify the farm adviser's office.

ANGUS BREEDERS TO MEET
Members of the Southern Illinois Angus Breeders Association will hold their 18th annual sale of registered Angus breeding cattle in the livestock auction arena at National Stock Yards Feb. 25, starting at noon.

Madison county consignors are Delmar Meffert, Leslie Knebel and Maurice C. Hull, president of the association. A registered Angus heifer will be awarded as an attendance prize. There will be about 60 cattle in the sale from 12 southwestern Illinois counties. Catalogs may be obtained from Maurice C. Hull, Route Two, Edwardsville.

At the recent annual meeting of the Madison County Soil and Water Conservation District, Ben Givlio of Alton was elected chairman to succeed Arthur Schneider of Trenton. Burnell Augustin, Pocahontas, was elected vice-chairman and Norman Klueter, Edwardsville, secretary-treasurer. Eugene Meffert, Highland is another director and Delmar Nungesser, Marine, was elected a new member of the board.

Reports at the meeting by the Soil Conservation Service staff showed 80 new cooperating landowners and farmers in the county in 1963. Among the improvements made on county farms to conserve soil and water were 42 new ponds, more than 10 miles of ditches for field drainage, 33 acres in new grass waterways, 850 acres of pasture renovated, 122 acres planted to trees and 18 new soil saving structures installed.

Speaking of erosion control structures, a concrete structure on the farm of Richard E. Ellis, built more than 20 years ago in cooperation with the Soil Conservation Service, is as good as ever. It has prevented a gully from forming and has saved a lot of soil.

WINTER COURSES
James Barth of Highland is attending the University of Illinois winter short course in agriculture.

More than 300 farmers have obtained Illinois farm record books for 1964 at the farm adviser's office. If you haven't started yours for the new year, don't let much more time go by before you do. It's a lot easier to keep your records current.

Many people have also picked up copies of the 1964 Farmers' Tax Guide, issued by the U. S. Treasury Dept. and Internal Revenue Service. They are still available.

Catalogs for the annual 4 H Club-FFA Holstein calf sale at Highland February 8 are available at the farm adviser's office. The ten highest milk-producing herds in the Madison County Dairy Herd Improvement Association for the last month of testing were owned by C. C. Becker, Wilbert Weis, Harold Carl Baumann, Harold Klenke, Waldo Kneibach, Martin & Wilford Blase, Norman Henke, Elmer Klenke, Jim Beane and Vernon Becker.

Engelke Attends

Illinois Agriculture Group Questions Wheat Program

The question of "What do farmers have to do to say 'no' to government handouts?" was posed last week during the Illinois Agricultural Association board conference at Bloomington.

William J. Kuhfuss, president of IAA, asked the question following his return from Washington, D.C., and meetings with Illinois members of Congress. Also making the trip to Washington with Kuhfuss was Wilbert Engelke, Granite City farmer.

The IAA group reported that farm legislation may soon take a turn which should anger America's wheat farmers.

"It appears another attempt is being made to cram a wheat certificate plan down farmers' throats," Kuhfuss said.

Referring to a wheat bill which was reviewed earlier this week by the wheat subcommittee of the House of Representatives Agriculture Committee, Kuhfuss said, "This is virtually the same scheme farmers turned down so decisively in the wheat referendum last May. What do we farmers have to do to say 'no' to government handouts?"

Voted Down In May

In Illinois, farmers turned down the wheat certificate plan by a 2-to-1 vote last May 21. Asked who was responsible for the move to pass the bill, Kuhfuss answered, "I have been told on good authority that Secretary of Agriculture Orville Freeman is pushing the bill as his wheat legislation solution. This is hard to understand coming from a man who said farmers would see wheat prices tumble to \$1 a bushel if they didn't

pass the referendum last spring. No such wheat price drop has come about. Secretary Freeman also said we'd get no new wheat legislation if the referendum failed, but now he is pushing his wheat certificate plan again."

Kuhfuss said he found no sympathy for the wheat certificate legislation among the Illinois Democratic and Republican Congressmen he visited. "Our Congressmen realize Illinois farmers have spoken and they respect, as we do, this sneak attempt to overrule farmers with a piece of legislation which denies the farmers their right of decision."

"I do not understand how an election-conscious Congress and administration can be so serious about this legislation in light of the current frustration drive by President Johnson. This program would be costly to the consumer and the federal treasury."

Star-spangled savings plan

Most of us think about the future in terms of paying off the mortgage, educating the children, providing a retirement income.

But with the world the way it is today, it's almost impossible to make plans for your own future without considering the future of your country, too.

When you buy U. S. Savings Bonds, your money takes on both jobs. It grows to build your financial strength.

At the same time, it helps Uncle Sam watch over our peace and security.

Why not give your savings dollars this double assignment? You'll be joining millions of American families who are investing in their country's future — and you'll probably feel pretty good about it.

It's easy to buy Savings Bonds on the Payroll Plan where you work. A \$50 Bond costs \$37.50, a \$25 Bond \$18.75, and you can buy them in installments for only a few dollars a pay day. Or buy them outright at any bank. No charge for the service.

Buy Series E Bonds for growth, Series H for current income.

Some nice things about Series E Bonds

- You get 3½% more money when they mature
- You can defer the tax on accumulated interest until the Bonds are cashed
- You can get your money when you need it
- Your Bonds are replaced free if lost, destroyed, or stolen

Teachers' Group To Hear Discussion Of 'Big R'

"The Big R-Reading in the Elementary and Secondary Schools" will be the topic at the annual meeting of the Granite City Education Association on Tuesday, Feb. 18, at the senior high school.

Miss Audrey E. Claus, elementary school supervisor in the South Grand District of the St. Louis public schools, will be the speaker. A former primary teacher, and for several years principal of the first primary school, Miss Claus has worked closely with reading and spelling materials in the elementary schools of St. Louis, and she has done much in the curriculum of language arts. Miss Claus is a member of the faculty at Harris Teachers College and also conducts in-service programs in developmental reading for teachers in the St. Louis public schools. During the summer she will conduct similar classes at Washington University.

An ardent believer in the "Ungraded Primary," Miss Claus has worked closely with this program in the St. Louis schools since 1960. During the past year she has conducted workshops on the ungraded primary in House-

ton and Beaumont, Tex., and in Rochester, N. Y.

Miss Claus, an associate of Miss Kay Ware of the St. Louis public schools and author of the spelling tests used in the Granite City schools, is taking the place of Miss Ware at the Granite City Education Association meeting. Miss Ware, who is ill, is unable to keep the commitment.

Parents and others interested in attending the meeting may secure tickets from Dale Rea, principal of Emerson school, from Harold Briggs, principal of Mitchell school. Reservations close Feb. 13. Miss Lucy Parrish of the senior high school faculty is president of the Granite City Education Association.

High School To Host 'College Night' Thursday

Representatives from 11 colleges and universities will take part in "college night" at 7 p.m. Thursday at the senior high school auditorium, according to Lawrence McCauley, principal. McCauley said a general session will open the program after which parents and students individual representatives to be invited to consult with the academic and financial requirements of each school. Schools to be represented are Southern Illinois University, Illinois State University, Washington University, St. Louis University, Missouri University and Central Missouri College.

Even Jesus himself told stories, illustrating the truth that he

The "it" is fluoridation, the most proven health measure of all time—and, perhaps, the most debated.

President Kennedy urged support of fluoridation, pointing out that it was combined with other natural fluoridation sources in the water. Both Kennedy and Dr. Spock discussed it that man controls the level of fluorides to make sure that maximum benefits are received—economically, and safely.

In communities where fluoridation is not possible, parents

But 18,000 communities, including the Quad-Cities, still do not have fluoridated water.

Dr. Spock commented: “As a
